Lee H. Oswald Linked CBS-TV Paid Fair Play

There are many bizarre twists in the Oswald Story which left-wingers may not want publicized.

Oswald can be linked to New Orleans Marxists. He admitted membership in the ACLU and the Fair Play for Cuba Committee. Some of the fronts which the

Councilor has been exposing as share leaders with the Fair Play organization.

Someone in New Orleans recruited Oswald into communist activity, and someone there helped him make arrangements for a mysterious trip to Mexico. These facts, as they unfold, will be printed in The Councilor.

as NYA director for Texas--Lyndon's first big-time political job. During this time, Williams siphoned large sums of federal money to a communist school

PUBLIC RECORD SHOWS NETWORK PASSED MONEY THROUGH TAX-FREE FOUNDATION TO "STUDENT"

CBS-TV network paid a Fair Play for Cuba organizer, according to sworn testimony before Sen. Eastland's subcommittee, Apr. 25, 1961. Richard T. Gibson, 788 Columbia Ave., NYC, admitted that he was receiving money in the form of a "fellowship" passed through tax-free CBS Foundation. Gibson, in his thirties, is hardly a misguided juvenile. He helped arrange for ACLU and SCEF speakers to appear at Fair Play propaganda meetings.

CBS is headed by William S. Paley (or Palinsky), a second generation Russian. Gibson received the money at the time he was active in the revolutionist group. (See Nov. 20 Councilor)

Meanwhile, consider these important points:

(1) Investigation of New Orleans communist fronts by the La. Committee on Un-American Activities is being hampered by a "liberal" federal judge, John Minor Wisdom.

(2) Carl Braden of the Southern Conference Education Fund which has headquarters in New Orleans is also a top official of Castro's "Fair Play for Cuba Committee". (Nov. 20 issue of The Councilor disclosed large contributions to SCEF by Mrs. Edgar Stern of New Orleans.)

(3) Aubrey Williams, president of the SCEF, ironically, was President Lyndon Johnson's old "boss". Williams headed the National Youth Administration under Roosevelt and used Johnson

(Commonwealth College) near Me-
na, Ark.

(4) Citizens Councils have
been trying for 3 years to warn
America about communist activity
in New Orleans which produced
Oswald. If these warnings had

been heeded, John Kennedy might
be alive today.

(5) Friends of Lyndon Johnson
say privately that he will dump
some of the "Russian cadre" from
the White House, and that Lyndon
is not as revolutionary as he

once was. This remains to be
seen. He went through with a
\$50,000 tax-free grant to nucle-
ar scientist, J. Robert Oppen-
heimer, Monday in spite of Op-

penheimer's communist-front record.

(6) New York Post tried to fix blame for the assassination on "Mississippi rightwing friends of Oswald." The Post is owned by the Schiff Family. Jacob Schiff, as senior partner in Kuhn, Loeb & Co., financed Nicolai Lenin and Lev Bronstein (alias Leon Trotsky) and is considered to be the real father of the Russian Revolution.

(7) Most newspapers have ignored Oswald's admission of membership in the ACLU. (American Civil Liberties Union)

(8) Only a few papers have admitted that the president was killed by dum-dum bullets and the bullet fired into Oswald was probably a dum-dum. Significance of this factor will be known in the near future.

(9) Only a few papers admit the role of Fair Play for Cuba as sponsors of the so-called

Freedom Rides 18 months ago, and that many of the riders trained in Havana. (This program was turned against the communist sponsors by the Citizens Council. Havana and Moscow suffered a major propaganda defeat.)

(10) Top U. S. liberals made statements amazingly similar to Moscow's line only a few minutes after the killing. Herein lies more than coincidence.

(11) No plausible explanation has been given for Oswald's ADVANCE knowledge of the parade route. He must have known it for many weeks.

(12) Two officials appointed by LBJ to probe the assassination were among U. S. leftwingers who brazenly implied that anti-communists killed the President. (Rep. Hale Boggs and Chief Justice Earl Warren)

(13) Liberal news media have soft-pedaled the fact that Oswald was subsidized.

(14) Three difficult shots in 5 seconds must be fired by a skilled marksman who knows his rifle and its scope, and one who has practiced recently. Who drove Oswald out past the end of the city bus lines so he could zero his new telescopic sights?

(Read the Dec. 20 Councilor for more information now being developed by our staff.)
